***Reasons for Allowance***

1. The present claims are deemed allowable over the reference Nakaoka et al. (EP '874 A2) and Jha et al. since Jha et al. fail to disclose or render obvious a method of making a semi-hard magnetic film meeting applicants' claimed method limitations. Nakaoka et al. in view of Jha et al. disclose a semi-hard magnetic material substantially identical to applicants' structural limitations (see *Paragraph 15 of the Office Action mailed July 21, 2003*).

Nakaoka et al. fail to disclose a method comprising the step of preparing a multilayer body in which layers "A" having magnetism and layers "B" containing a non-magnetic Cu group metal are stacked on each other, instead forming a powder or nugget of the combined materials via powder metallurgy or casting (*page 6, lines 27 – 53 and examples*).

While Jha et al. disclose a method to form a magnetic material comprising the steps of preparing a multilayer body in which layers "A" have magnetism and layers "B" containing a non-magnetic Cu group metal are stacked on each other, wherein the multilayered body is then **cold rolled** so that layers "B" are segmented substantially sheet-like layers (*Jha et al., Figures 1 – 5 and col. 2, lines 6 – 48*), Jha et al. *explicitly teaches away* from the claimed process of "**heating** the multilayer body so that the layers "B" are segmented substantially sheet-like layers formed by a dividing heat treatment" (*col. 4, lines 56 – 66*).

Therefore, the combination of the claimed limitations of "preparing a multilayer body in which layers "A" each ... having magnetism and layers "B" each containing a

non-magnetic Cu group metal as the main component thereof are stacked on each other" and "heating the multilayer body so that the layers "B" are segmented substantially sheet-like layers formed by a dividing heat treatment" are neither anticipated, nor rendered obvious, by the prior art of record.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
